MEMORANDUM FOR: Chairman, Technical Development Board, NPIC
THROUGH: Secretary, Technical Development Board, NPIC
SUBJECT: Spare Parts for the [REDACTED] Electronic Rectifier

25X1A

1. THE PROBLEM:

In June or July, two electronic rectifiers will be delivered to Washington. No spare parts have been ordered for them.

2. FACTS:

Both rectifiers will be located in the same area, even though one belongs to NPIC and one belongs to the Army. Their first location will be at the Army Map Service where they will remain until we move to [REDACTED] at which time they will be moved to the new location. We have agreed with the Army to furnish an operator/maintenance man for these machines and spare parts provided that Army Map Service houses the instruments in a suitable environment. In order to live up to our agreement, we have to order the spare parts.

3. RECOMMENDATION:

Prepare a requisition for [REDACTED] which is [REDACTED] price for one set of spare parts. This should be done shortly so that the parts can arrive at about the same time that the machines do.
